## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 11-20 are allowed.

The following is an examiner's statement of reasons for allowance:

- The primary reason for the allowance of claims 11-20 is the inclusion of the limitation of a liquid discharge head includes a first separate electrode provided in a vicinity of the first electrode which contacts a portion of the second electrode when the diaphragm is deformed, the first separate electrode being electrically isolated from the first electrode and a second separate electrode provided in a vicinity of the second electrode which contacts a portion of the first electrode when the diaphragm is deformed, the second separate electrode being electrically isolated from the second electrode. It is limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
